We Started Out Last Spring to Make the Inland the Most Modern Plant in the State

We outlined a plan of campaign and set aside \$10,000 to do the work. We have been working ever since on that line. The outlay has now passed \$11,000 and is still going on. But we have accomplished what we started out to do. Our equipment has been strengthened at every weak point until now our plant is absolutely complete and right in every particular.

*The
Blair
Busi-
ness
College*

This school is conducted by practical educators to fit young men and women for positions with business firms. Its courses are thorough and practical.

Positions

Graduates fill many responsible positions.

The demand by business men for its graduates is far beyond the supply. More than twice as many young people could be placed in good positions annually than are placed, if the enrollment were double.

Attendance

The annual attendance in this school is larger than that of any other Business College in the northwest.

Equipment

The college is the best equipped in the northwest. Its students enjoy advantages not to be had elsewhere.

It Will Pay

to visit this school and convince yourself of its merits. Send for catalogue.
